

EFFECTS OF RADIATION

Uranium: kidney damage, bone diseases & developmental problems

Thorium: birth defects, liver disease & cancers

Radium: decrease of white blood cells, cancer

Radon Gas: lung diseases, cancer, Alzheimer's & Parkinson's disease

Polonium: placental damage, subfertility & miscarriage

Radioactive Lead: miscarriage, stillbirths, infertility, behavioral problems, cancer

HARM TO THE BODY

BONES:

uranium, radium, thorium, polonium (marrow)

LUNGS:

ALL inhaled isotopes

LIVER:

uranium, radium, thorium, polonium

KIDNEYS:

uranium & polonium

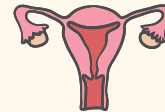

PLACENTA:

uranium, radium, thorium, polonium, radioactive lead

OVARIES:

polonium

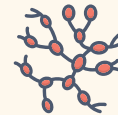

BRAIN:

radon gas

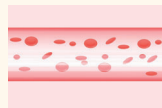

LYMPH NODES:

thorium

BLOOD STREAM:

radon gas

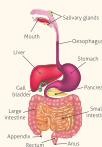

SPLEEN:

thorium

DIGESTIVE TRACT:

ALL ingested isotopes

FETUS:

uranium, radon gas, polonium, radioactive lead

ALL BODY:
radioactive lead
